## COSTS OF BORROWING:

### A. INFORMATION ABOUT INTEREST RATES:

Mount Vehicle Finance Limited "MVF'S" interest rates are fixed for the term of the loan and range from 9.95% to 24.95% P.A. The interest rate which will apply to your loan will depend on a number of the following factors:

1. The information you provided in your credit application
2. Information provided by MVF'S credit reporting agencies and other third parties
3. Your previous credit history with MVF if applicable

Default interest is charged from the time you fail to make a due payment until the arrears are paid. Default interest is your annual interest rate described in your contract plus 5%. For example if your annual interest rate is 9.95% the default interest rate will be charged at 14.95%. Default interest is charged by multiplying the unpaid arrears balance at the end of the day by the daily default interest rate. Default interest is charged to the loan account at the end of each month.

### B. INFORMATION ABOUT CHARGING INTEREST

Interest charges are calculated by multiplying the unpaid balance at the end of the day by a daily interest rate. The daily interest rate is calculated by dividing the annual interest rate by 365. Interest is charged to your account on a monthly basis.
